I am very happy to recommend Kratos Energy to anyone planning to install a solar panel and battery system at home. I found their pricing fair and affordable, and the service both before and on installation day was excellent. Thank you, Nessar and Wei.

Kratos Energy completed our solar system seamlessly, and we are very satisfied with the entire process and results. They offered a very reasonable price for the same products and services compared to other providers. A special mention to Nessar, who worked hard and efficiently throughout the process. Highly recommended to future customers.

I'd like to thank Nessar and my neighbour Hasan for doing a wonderful job organizing the installation of solar panels on my house. Wei and his team worked incredibly hard, especially since my home is double-storey, making the installation quite challenging. They spent the entire day ensuring everything was completed correctly. I'm very happy with the service. A special thanks to Hasan and Nessar for providing me with the best deal.

I am more than happy to recommend this company. Communication throughout the entire process was clear and prompt. Wei and the installation team kept me informed, left the property clean, and removed all rubbish. Mike, my salesperson, was knowledgeable, thorough, and genuinely took the time to answer my questions and understand my needs. Excellent service from start to finish.

I installed a 10.13kW solar system and am extremely happy with the product (Sungrow inverter and Trina panels) as well as the price. Mr. Nessar, CEO of Kratos Energy, is dependable and true to his word. He provided detailed information, a competitive quotation, and completed the installation within a week. The electricians were highly professional and took great care with my roof tiles. I strongly recommend Kratos Energy for solar installations.

Kratos Energy arranged my solar battery installation, and the entire process went very smoothly. I was kept informed every step of the way. Logan from LJ Electrical arrived on time and completed an excellent installation. He explained everything clearly and even helped me install the monitoring app before leaving.
